Belgrade, Serbia (ready to relocate)

Professional Summary:

I am a skilled Frontend Developer with modern JavaScript/TypeScript stack expertise, specializing in Vue.js and Nuxt. My passion lies in crafting robust user interfaces and creating visually engaging data visualization pages. Additionally, I thoroughly enjoy conducting thorough code reviews and providing mentorship to support the growth of fellow team members, leveraging both my technical and interpersonal abilities.

Skills:

- JavaScript, TypeScript
- VueJS, Nuxt, Vuex, Pinia
- HTML5, CSS3, SCSS, BEM
- Webpack, Vite
- Responsive design, Mobile-first approach
- Feature-Sliced Design
- Jira, Youtrack
- Git

Work history:
